ACCUMULATORS

Extremely adaptable and customizable, basic and specialized designs of Accumulators by Freudenberg Sealing Technologies can be produced to meet each customer's specific needs—physical size, fluid volume, pressure, corrosion resistance, materials, construction, and/or certifications. We offer One-Stop-Solutions with a comprehensive range of superior quality products and services.

PISTON ACCUMULATORS

The wide variety and versatility of our Piston Accumulators allows their use in over 90% of all potential applications. Proven durability and performance deliver freedom from potential bladder failure. From volumes of a few cubic inches to hundreds of gallons and up, to 20,000 psi MAWP (1380 bar), the pistontype hydro-pneumatic accumulator can meet the diverse needs of industry with standard or custom designs, a comprehensive selection of gas and fluid connections, and a wide range of materials, seal types, and configurations.

DIAPHRAGM ACCUMULATORS

Designed for the most challenging applications that demand lightweight and high-strength performance, our diaphragm accumulators come in a variety of materials, seal types, and configurations. Our Diaphragm Accumulators offer exceptional functional reliability and durability, and expand versatile application areas with operating pressures up to 350 bar. Freudenberg meets your application challenges by providing accumulators that cover wide temperature ranges and deliver longer service life.

BLADDER ACCUMULATORS

Constructed of high-strength, seamless, chrome-moly-carbon steel shells, our Bladder Accumulators provide a quick response to fluid system demands while combating extreme pressure. Utilized for a wide variety of applications we strive to meet the challenges of your application by providing Bladder Accumulators that cover wide temperature ranges and provide longer service life. Available in a variety of industry standard capacities and pressures, our bladder-type accumulator excels at absorbing system shocks and pulsations, especially those of high frequency/low modulation.

CERTIFICATIONS

Standard certifications

- ASME/NB
- CE/PED
- SELO

Special certifications on demand

- CRN
- NR-13
- AS-1210
- DNV
- ABS
- BV
- GOST
